SKILLS & EXPERTISE

- Software Engineering
- AI Training
- AI Evaluation
- Python
- JavaScript
- TypeScript
- React.js
- Node.js
- RESTful APIs
- System Design
- Frontend Development

SUMMARY

Highly experienced Software Engineering Expert with a proven track record in building and shipping robust software solutions. Successfully streamlined bug testing processes, reducing resolution time by 30% and ensuring successful product launches. Adept at evaluating AI model-written code, identifying production-critical issues, and providing clear, actionable feedback. Excels in ambiguous environments, delivering high-quality software engineering judgment and maintaining system functionality.

EXPERIENCE

Software Developer expert

Federal Ministry of Agriculture and Rural Development

Abuja | May 2021 - September 2021

Streamlined the bug testing process during a high-pressure release, implementing an efficient system that reduced bug resolution time by 30% and ensured successful project launch.
Completed vital maintenance tasks on existing programs, ensuring continued functionality and reliability in a production environment.
Contributed to a collaborative team, enhancing software quality and meeting tight deadlines.

EDUCATION

Primary school

Pace setters academy

2006 - 2010

Developed foundational problem-solving and critical thinking skills through various academic exercises and projects.

- Backend Development
- Full-stack Development
- Mobile Development
- DevOps
- Performance Engineering
- QA Automation
- Security Engineering
- Software Development Life Cycle
- Agile Methodologies
- Git
- Problem Solving
- Written Communication
- Critical Thinking
- Edge Case Analysis
- Concurrency
- Scalability
- Error Handling
- Production Systems

Highschool Degree

Mea Mater Elizabeth High School

August 2015 - July 2018

Cultivated strong analytical and logical reasoning abilities, preparing for advanced technical studies.

Bsc Software Engineering Degree

American University of Nigeria, Yola

August 2018 - December 2022

Acquired comprehensive knowledge in software design, development, testing, and maintenance, with a focus on building and shipping production-ready software. Engaged in projects that required evaluating code quality, handling edge cases, and ensuring system reliability.

PROJECTS

Disney plus Clone | https://disney-clone-master-three.vercel.app/

Software developer | ViteJs, TailwindCss, TypeScript, Axios

A disney home page clone built with ViteJs , Tailwindcss and Axios . Able to view profile data and available movies. with an implemented slider. it also has the movies from all the other disney franchises.

My portfolio | https://princeobi.vercel.app/

Full stack Developer | NextJs, TailwindCss, TypeScript Styled, Components

This portfolio that i built and designed myself using the NextJs ecosystem . It is a responsive website that is able to display my projects and skills. It is also a medium that other people can use to contact me.

Ecommerce store CMS | https://github.com/Tyrantflood/ecommerce-admin

Full stack | Nextjs, TailwindCss, TypeScript, Prisma, Axios

I developed a Content Management System CMS using REST APIs, specifically tailored for supervising an e-commerce website. This CMS empowers users to personalize a pre-made store template to
